such parcels. They were packed with 22,000,000 pounds of food and comforts welcomed by men to whom the barest necessities have become luxuries.

But, most of all, to each prisoner every Red Cross parcel is a message from home-a definite assurance that he is not forgotten, a reminder that no captured Canadian soldier is ever marked "off strength" by the Red Cross.

Thirty percent of the money you gave to the Red Cross last year was used to provide parcels for prisoners of war. The money you give now will help to keep up and increase this flow of good cheer and hope to these lonely men.

# **RATION COUPON** RANKING

Beginning March 1st, the 3,200 branches of the Chartered Banks of Canada, undertake another wartime service, namely Ration Coupon Banking. It is a vital part of the nation-wide rationing program.

# Facts You Should Know

- I If you are a merchant, jobber, wholesaler or other dealer receiving ration coupons from your customers, your bank stands ready to show you coupons you receive. The same applies if you are a "quota-user."
- 2 It has nothing whatever to do with your regular bank account, in which you deposit dollars and draw cheques in dollars.
- 3 It is purely a relationship between dealers and commercial banks. Ration Banking begins only after the consumer has used his coupons to
- 4 The banks' job is mainly of an accounting nature —acting as on agent of the Ration Administra-tion, Wartime Prices and Trade Board, under carefully defined regulations.
- 5 Ration Coupon Banking relieves the Ration Administration of the tremendous burden of hand-ling, verifying and accounting for used coupons with which consumers have obtained their suppliess.
- 6 If you are a consumer only, it in no way affects how much or how little of rationed commodities you receive. Banks do not issue ration coupons, nor do they have anything to do with the actual rationing of commodities.

By this important addition to the many wartime services they perform, the Chartered Banks serve the nation, facilitate business, and seek to save time and expense to the country

March Enters

March, the apring month, has come. A light-fall of snow and the sound of wind which blew for a while on Sunday heralded the advent of the period which sees the close of winter. Its entry was gentle and lambility.

the close of winter. Its entry was gentle and lamblike, and lamblike, the been both violent and lamblike, the second of the close that the close who kept the streets cleared and formed a mass of hard snow and finally ice which have troubled pedestrians and

ice which have troubled pedestrians and drivers of motor cars.

But in spite of this the turn of the weather has been favorable and what seemed a month and more ago as indica-tions of possible flood conditions in the spring break-up do not now look threat-ening but rather favorable to the usual breaking-up of the ice which is without ishap or inconvenience except to a few. mishap or inconvenience except to.a few. Great floods are rare occurrences, often many years separated, the last one being seven years ago, when the freshet was hastened by the steady downpour of rain before the snow had sufficient opportunity to melt. Mild spells and then freezeups this year have so far prevented the thaw getting to a stage that might threaten. The rain latterly has been very light to

# IMPORTANT NOTICE TO ALL HOLDERS OF

# SLAUGHTER PERMITS and of LICENCES TO SLAUGHTER HOGS

Because of the urgent need of securing the quantities of BACON and other PORK PRODUCTS necessary to meet the waitime requ'rements of the United Kingdom, and the consequent necessity of curtailing slaughter for domestic use in Canada,

the following action has been taken under a new Order of THE BACON BOARD, concurred in by THE WARTIME PRICES AND TRADE BOARD.

# ON AND AFTER MARCH 1st, 1943 . . .

Persons not already licensed to claughter hogs under previous orders of THE BACON BOARD, but holding saughter permits from THE WAR-TIME PRICES AND TRADE BOARD hall not exceed 75% of their 19x average weekly number of hogs, claughtered by or for them for sale or further processing in Canada. (See following paragraphs for further explanation regarding areas concerned.)

## THIS ORDER APPLIES . . .

... to all who hold alaughter permits from THE WARTIME PRICES AND TRADE BOARD and who are located in what is generally known as 0d4 Ontario; to all those holding such permits and located in or slaughtering for sale in any town or city with a population of over 5,000 in the Maritimes, Quebec, Manitoba, Saskatchewan, and Alberta, and that part of British Columbia known as greater Vancouver.

# THIS ORDER DOES NOT APPLY . . .

to holders of slaughter permits in any part of what is generally known. New or Northern Ontario, or British Columbia excepting the greater

... it does not apply to farmers slaughtering hogs for consumption on their own farms only... (These do not require slaughter permits and are not subject to this new Order.)

Persons already licensed to slaughter hogs under previous orders of THE BACON BOARD will continue operations under their present status. That is, they are still restricted to 50% of their 1940 weekly average for distribution or sale in Canada.

### Try This "BETTER WAY" to Get at a Common CAUSE and CORRECT It!

Now, in these busy war days there's less reason than ever to put up with that common type of constipation . . . the kind due to lack of the right kind of "bulk" in the diet. Get at it the sensible way! Instead of resorting to harsh purgatives that give only "temporary relief", switch to the regular use of KELLOGG'S ALL-BRAN.

Let this delicious, crisp, ready-to-eat cereal be your "ounce of prevention" . . . eat it regularly every morning, drink plenty of water, and forget you ever had common constipation. For ALL-BRAN supplies "bulk"-forming material necessary to keep regular. Also, you'll find recipes for those delicious ALL-BRAN muffins on every package. Get ALL-BRAN at your grocer's, in either of two convenient sizes. Made by Kellogg's in London, Canada.

Well, you can do a lot by feeling that way when you buy. In that red-white-and-blue mood you'll buy only schen you must; and what you must buy will be the longest-fasting product you can find.

That is one sure way to help your country's war effort. For the longer-lasting things you buy won't need to be replaced so soon, releasing material, machinery and labour neciet to help win the war, And, when you huy longer-lasting products you get better value.

Make sure that your present battery is worn out before you hay a new one. Consult the Exide Dealer in your district. He has been carefully chosen for his ability to give honest battery service. He will help you to get from your present battery all the service it is capable of giving.

### THE BOY WHO WENT AWAY

I wonder what beckine of him, That little boy I taught to swim And told the accrete of the wood. And told the accrete of the wood. That had who said he couldn't wall. That had who said he couldn't wall. Who learned the trick of climbing trees Who solved among life's mystem. That one best way to fly a kite. Who liked to read in bed at night. Who liked to read in sed at might I cannot help but wonder some What sort of man he did become: Where is he gone that freekled kid Who learned to do the things I did! Who learned to do the things I did! The years have slipped away so fast, I hardly dare to delve the past To wonder with nostalgic pay What ever happened to that boy, Time tempered him, and, growing older With keener eye and broader shoulder, He did not hesitate to heed. The summons of his country need, He left hig games to take a gun He left his games to take a you—
To get a thousand battles won—
He went away to war, that kid,
To do the things I never did!
How proud I am to speak his name—
The man that little lad became!
—Carl John Bostelmann, N. Y. Times.

The Dominion Government recognizes that the wood-field shrouger is oserious that even with the full co-operation of energone in affected committies an adequate supply in not assured. Accordingly, it has been decided to stimulate the output of wood-field by assisting those normally engaged in its production and distribution. To this end, the following measures

- A subridy of \$1.00 per cord will be paid to dealers on all commercial fuel-wood contracted for and cut on or before June 30, 1943, and held to dealers' account on that date.
- June 3 vs. 3 vs. 3 see again to ceasers account on tast case.

  2 The Coal Controller has been ambroked to strange in his discretion for the payment of such portion of the treasportation corns as he considers price, to procure supplies, fand it necessary the controller for the controller procure supplies, fand it necessary which they normally derive their supplies. In order to obtain any such relimbursement, dealers must obtain a permit from the Coal Controller before contracting for such supplies.
- The Coal Controller will repurchase from dealers at dealer's cost all commercial grades of fael-wood on which a subsidy of \$1 per cord has been paid and which are still in dealers' hands as at May 31, 1944.
- Assistance will be given in providing priorities for necessary
- Sparsers now on the farm, and who leave the farm temporarily in response to this appeal to engage in faid-wood cauting, will be deemed by Nasional Selective Service to be extrying out their regular occupation as farmers and will be given all the rights of defermant of milliary service which was the rights of defermant of milliary service which was the strength of the property abstracts to head not, however, instetiev with approximation productions.

Municipal councils, farmers, fuel dealers, individual citizens; service clubs, and all other groups in communities where wood-fuel is burned, are urged to begin at sece a rapid survey of their local situation, and to take imme-diate action to relieve the shortings:

#### NO SUGAR DADDY

From the New Yorker we learn the saddest Valentine's Day story this year which involved an affair which starts with a young lady named Therees 'tel-phoning Western Union and asking that Valentine Greeting 242 be delivered to a certain young man. Valentine Greeting Valentine Greeting 242 be delivered to a certain young man. Valentine Greeting 242 might be criticized as kind of ailly, but it's definitely harmless; it reads: "Hen's Cackle, Rooster's Crow, You're My Valentine, Boot Cha Know?" Western Union, however, sent out Valentine Greeting, Ed. Williams, He was here at Lancaster in 1869, it and Daddy's Money." Daddy got hold of graduated as Oxford, astered the British in british in the graduated as Oxford, astered the British in the Manuscon department, of printed books in large to be done, Western Union, we're glint 1898, became an aastatank keeper in 1999, in preport, wrote a manly straight-forward a deputy keeper in charge of Oriental letter accepting all the blame, which was printe and drawings in 1913. ## Check Your Meals

It isn't so easy to be sure you serve nutritional meals unless you systematize your planning

"Hidden Hunger," surveys show, is much see common in every income group. By "Hidden Hunger" we mean a condition of less than perfect health, which originates in a lack of important foundation foods. Now health, which originates in a lact of important foundation foods. Now I hope none of my readers are say-ing: "Tut, tut, that's too had soot site people!" Because the chances are that even year our family doesn't always get all the basic foundation foods; peéds. And in wartime this danger is even greater, because familiar foods are sometimes in

short supply.

It was to help housewives meet this very real danger to the family's health, that I included in my new mear cookbook, "Meat Complete," the "Right Foods Check Chart" you see illustrated above. It greatly simplifies the problem of making you

serve all the kinds of food neces-sary for a balanced protective diet. Whether you use my cookbook or not, I do urge you to set up some system by which you check your family's minimum food needs. These family's minimum food needs. I nese are: One serving daily of Mear, Fish or Poultry, three or four eggs a week, and Liver, Heart or Kidney once a week. One serving daily of circus fruit or topastoes or their juices— one other fruit. One serving daily one other trust. One serving carry
of postaces, two of other vegetables,
frequently raw. At least 1/2 pint milk
daily for adults, more than a pint
for children . . . cheese as available;
And, daily, four to six slicks of
Canada Approved bread, one serving
whole grain cereal.

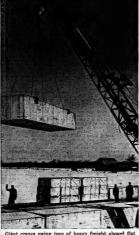

Makers of Premium Quality Products; Brookfield Butter, Eggs and Cheese; Jewel Shortening and Silverleaf Lard.

Martha Logan's new 34-page meat cookbook contains, besides over 80 recipet, serval menus, cook-ing timetables, etc., a valuable "Right Foods Check Churt." Send 10¢ to Swift Canadian Co. Limited, Dept. OAP, cronto, for your copy.

# SWIFT CANADIAN CO., LIMITED

With less equipment and personnel than they had during the last war, Canada's great railroads are today doing a job twice as large. Along Canada's 50,000 miles of track the signal lights shine green for the vital traffic of war.

Giant cranes swing tons of heavy freight aboard flat cars bound for Canada's seaports and military centres. Often vital supplies must be moved thousands of miles,

Intricate are the duties of the "levermen' freight trains through masses of switches. Harsh winter means hard work for section ", who must guard the movements of A. C. Glodden is shown in top photo. hands, unsung heroes of the railways.

As his train rumbles through the night with its precious cargo of war goods, Conductor C. E. Rose catches up on some "paper work" in the tiny office of his caboose. During the run this car serves as a home for the rear-end crew men.

As a freight moves out of terminal, Despatcher A. W. Simpson, many miles along tracks, receives particulars of departure and schedule and will continue to do so as it passes stations enroute. Exact position of train is always known.

Train crews, sleeping between runs, can't depend upon usual alarm clocks awakening them in time. The job is done by call boys, like Doug Watson, shown here.

This is Margaret King, one of many girls who have added railroading to long list of other activities in which women have replaced men for the duration.

Nustiest winter job in railroading is the brakeman's. He must clamber about rocking freight cars in fair weather and foul. War traffic increased his worries.

The new Victory Lon will be opened on April 26, an announcement states. The April 26, an announcement states. The news comes as no surprise as the people of Canada are awake to the financial burdens which was prings as a means of creating that power which will cleanse the world from Nazism.

No details have been announced, these are to come in due time as to the pize of the loan.

The people will from now on be laying plans to carry out their duty to invest as largely as they possibly can in the forth-coming issue.

oming issue.

Previous loans have met with a hearty response from the people and there is every confidence that the response to the new loan will be even more, spontaneous. As time passes the people learn more and more of war needs and they take these facts to their bosoms and there decide the utmost they can do to stand financially with the great masses of the public who invest in war bonds to help the armed forces in their task of saving the world for liberty

### Will Use Helicopters

Will Use helicopters for pro-tection of convoys, it has been announced. The news was taken up with avidity in the United States where there has been discussion about adoption of this type of aircraft for use by American army and

The helicopter is another form of heavier-than-air machine to play its part in development of air warfare. The heli-copter is able to take off from a small copter is able to take off from a small space vertically and can land or leave the deck of a ship. It can fly forward, hover or fly in reverse. This is a form of craft which will be to the advantage of Allied merchantmen which can thereby carry their own defences and add to their

### Named After Warsaw

What the Polish capital of Warsaw has suffered at the hands of German brutality suffered at the hands of German brutality is history in part to be written, but the world knows enough of its tragedy and the great glory of hardian to pay honor to that shrine of liberty and Gerdanian Canada, whose territories have been untouched by the Nazi enemy of humanity, can appreciate the difference of the state of Warsaw and Dominion cities and

fate of Warsaw and Dominion cities and so the action of the government of British Columbia in naming one of the peaks of the Rocky Mountains near Revelstoke, at the edge of the new provincal park at the bend in the Columbia River. Mount Warsaw, will be endorsed by the people of Canada.

Canada. This nation is proud to have one of those enduring peaks which will last for all time named after that city which the unspeakable. Hun made suffer untold agonies. From Poland Poles can look in the mind's eye across Europe, the ocean and across Ganada to the Rocky Mountan peak. Just as certain as Mount Waraw endures so Warraw will rise again more glorious,

gracious act of the British Colum-The gracious act of the British Columbia Legislature will enshrine forever a free young country's tribute to a heroic city of a great Old World state and will thereby point the finger of justice and humanity against the awful crimes of Nazism run mad because Poland was a liberty-loving state and stood in the way of the murderous German Nazis in their drive for world power. Warsaw suffered drive for world power. Warsaw suffered

drive for world power. Warsaw suffered because Polishrspirit would not be a slave and preferred to suffer rather than to bettay the freedom and liberty the world had learned to cherish. The awful crime that rests on Germany is an oid crime for back in the First War of German aggression the Hun mundered a Brilish nurse whose only offene was love of humanity. In Jasper Park, B.C., love of humanity. In Jasper Park, B.C., there is the mountain peak named after Edith Cavell, perpetuating the loyalty of Miss Cavell even to death. The eternal rock and summit of the Mount enshrine in pure glory the name of this great lover of humanity. Militaristic Germany has not learned the lesson that the wages of cull is built in the foreunance of other crimes in the savagery which the Hung have practised in this war.

#### Unique Battle

Unique Battle
Probably all history does not record the
co-nice-part of the battle of the Bismarck
Ses when twenty-two Japanese warnips
and other craft were destroyed and
15,000 Japanese troops aboard were
killed or captured except five Japanese
who succeeded in escaping. That was a
one-died battle.
It was also unique in that it was a battle

It was also unique in that it was a battle of Allied air might against the Japanese warships and convoy. With Allied superiority in power and in operation of planes, such a condition can explain the disparity of losses, the Japanese convoy being to all intents and purposes completely desiroyed.

# The Dogs of War's is an oldgraph of the control o HOW TO FILL OUT YOUR APPLICATION FOR CANNING SUGAR

This year housewives must estimate in advance the amount of sugar required for canning and jam-making, so that arrangements may be made to provide and distribute the necessary supplies. Applications must be sent in to your Local Ration Board by April 13th. Use the applications in your new Ration Book for this purpose.

Canning sugar will be allowed for all fresh fruits, including citron and wild fruits. Marrow, tomatoes and pumpkins are considered as vegetables and no canning sugar will be allowed for them.

#### HOW TO FIGURE OUT THE AMOUNT OF SUGAR NEEDED -

#### CANNING

Allow 1/2 lb. of sugar for each quart sealer. Estimate the TOTAL number of quart Estimate the TOTAL number of quart scalers you plan to put up—then use the quick, practical method of allowing V<sub>2</sub> he, of sugar for each quart scaler. Don't try and decide exactly the number of Some fruits may be more plentiful than others. Base your estimates on the num-ber of scalers you have on hand, what you put up last year, or what you think your needs will be this year.

You have seen him in the street, Rolling round on grosgy feet, You've despised him when he's been out on a "spree" But you didn't see the trip On a dark and lonely ship Through a submarine, and mine-infested

You have mourned about the cost
Of every vessel lost
It puts you in a pesamistic mood;
But you've never said "Weil done!"
Or congratulated one
Who helps to 'bring your wife and

People there are—still too many—who are so ill-informed as to feel that adequate visual provision can be afforded by "any old glasses" (50 centers) through which they can "see better" than without,

Only less ignorant are they who experience the limited examination of a medic practitioner, or of an optical chain stouthe SPECIALIZED services of the proprise or Optometrist—even at the same cost.

NO DRUGS USED.

Each day the great war industries of Canada are enrolling more women to take the place of men called away from their machines by the increasing demands of the armed services. Already nearly

a quarter of a million women are working in the war factories of the country. Immense release of womanpower was made possible by creation of day nurseries by Dominion and Provincial authorities.

It's bedtime now, time to go home for these two pre-school aged tots. They are daily wards of the Dominion-Provincial Day Nursery at Toronto. The mother is employed in a war plant and brings them to the nursery every day on way to work.

The children themselves are the greatest boosters of wartime nurseries. Here a few of them take time out from reading or plasticine to pose for picture.

Organized group games are important in the programme planned for the tiny total distribution of the Dominion-Provincial Day Nurseries. The very young tably shown at the extreme left appears to be having a little trouble with her cues.

This youngster's mother took him to the nursery at 7.00 o'clock; and then left for the munitions plant where she works. The child is getting a well-deserved nap after a busy morning. Picture was taken in a Toronto Dominion-Provincial Day Nursery.

Getting ready for home is a strenuous business, par-ticularly the problem of wrestling into galoshes. But in a few moments now, mother will be calling for him,

ANOTHER CHALLENGE TO U-BOAT RAIDERS

WE horses hauled caissons with the best of this war-motorized as it is-hasn't backed right up to our stable doors again. Ploughing, planting and harvesting the grain for high-proof alcohol to make the rubber Hirohito thought he was doing us out of. And folks, take it from us, the United Nations are getting that grain, that alcohol, that rubber!"

Synthetic subber made from high-proof alcohol is jumping out of the test tube and onto the wheels and treads of jeeps, trucks, tanks, gun carriages, and airplane landing gear, outwearing and outlighting the best natural rubber. Unaffected by gasoline and oil, it's going into self-sealing gas tanks, gasoline and fuel oil hose and pipeline connections. It's making rafts, diving suits, oxygen masks and literally thousands of other pieces of war equipment:

Not only is high-proof alcohol used in the manufacture of synthetic rubber, but also it is an essential in the production of high explosives, war chemicals, pharmaceuticals, medical sup-plies, lacquers, shatterproof glass and countless other war materials. Today high-proof alcohol is pouring from our stills in an ever increasing volume . . . a vital element of Victory!

Air Ministry Building In Berlin Hit

YOU HEAR IT at all hours . . . that long-drawn cry of the locomotive whistle. It's the war whoop of the railways.

It may be a troop train speeding to keep a date with a convoy . . . it may be a long freight loaded with tanks, guns and other materials of war, many of them built by the railways themselves . . . it may be another week's supply of raw materials to keep a war plant in production, or food, fuel and other essentials for the home front.

1943 MODEL

It is the war whoop of Canada's greatest war industry - the railways, which are serving the nation as effectively in war as in peace. Only the railways can furnish mass transportation on such a scale.

Your railways were ready . . . ready in war, so that Canada could strike with all her might. They will be ready in peace again to serve a greater Canada . . . rolling ever forward on highways of steel.

## WHY DO WE FOLLOW A BAND?

Everybody stops to watch the band go playing by. Xet they could go home, turn on the radio and listen to the finest band in North America.

BUT IT'S NOT THE SAME!

The enjoyment is a much greater and hear them at the same time.

The Columbia Concerts bring internationally famous singers and musicians to Belleville, whom we can hear and see and enjoy to the fullest. AND THE PRICE OF THE MEMBERSHIP IS SO REASONABLE.

MEMBERSHIP CAMPAIGN OPENS MONDAY, MARCH 29th.

FIRST CONCERT FREE TO NEW MEMBERS - APRIL 1st. ILES LEONA RIGGS.

# On this, our 75th Birthday

TODAY, our countries are at war—engaged in a desperate struggle to determine whether the freedom we have created and cherished shall survive or perish.

Beside the all-embracing immensity of that issue, the Seventy-fifth Anniversary which Metropolitan celebrates this month is of

Yet today, on our 75th birthday, it is perhaps proper that this company, repre-senting nearly thirty million policyholders in Canada and the United States, should here voice its faith in the future, and its determination to help make that future brighter than any period in the past.

We have just reason for that faith. Ours is a business that has been built on faith— faith in the continued and growing greatness of Canada and the United States, faith in the

In the 75 years since Metropolitan was founded, on March 24, 1868, we have faced founded, on March 24, 1865, we have secuel crisis effer crisis—wars, panics, depressions, disasters of many kinds... and from each such crisis we have seen our countries emerge stronger than ever. We confidently believe that they will do just that again— that the best years of history lie before us.

We have every reason, too, for our determination to halp make that future brighter. No business, perhaps, touches the lives and aspirations of millions of people more closely than ours. It is our plain duty to halp those people shifll their dreams—of an education for their children, of security for their families, of financial independence in their own old age.

In the past, we have tried to perform that duty through the wise investment of more than air killion dollars which we hold for the banelit of our policyholders. We have ladd for the banelit of our policyholders. We have ladd to the management, so that insurance costs would be hald to a minisum. We have tried to doi! through the prompt payment of all bonelits —which, in the Toyears of our cristiance, have better the contract of the contract of

And through our organized health activities, established in 1909, we have tried to make every possible contribution to healthier, longer lives for our policyholders—lives which, taken from birth, now average over twenty posts longer than they did in 1868.

In doing these things, we have also tried to be a good clinks. For we are part of Canada and the United States. Their true is our future. And today, in this critical hour in history, we say again—our faith in that future has never been stronger.

In many industrial plants and factories across the country

the secret of keeping light bouncing has meant great savings in electrical power used. Ceilings, walls and floors have been turned/into huge reflectors by painting with light reflecting finishes. There are no dark surfaces to blot out the lumens (units of light). With no increase in power, there have been important increases in illumination. Today, conservation of electrical energy is essential to Canada's industrial effort. The amount of power available is definitely limited. It must be made to go as far as possible. t'Bouncing Light" helps to stretch our vital supplies of power.

"DADDY'S BOY!"

What are you thinking of, laddle,
As you lie and kick in your crib,
Glucking and "gooing" at daddy,
And chewing the edge of your bib?
Are you thinking of days in the distance,
With that owl-wise look in your eye,
Or are you no 'move than admiring
The bright spots on daddy's new tie?

I wish I could hear the far voices You seem to be listening to; With all of the fanciful choices

Which are now so intriguing to you,
You are only a wee little fellow,
With so many things yet to learn,
But you never have ruled a good thing
By gossiping out of your turn.

You never have lied or have cheated. As many grown-up people do, You haven't learned war or hatred-Life is still at "reveille" for you.

Those big round eyes that I love so
Know not what is meant by deceit.
You don't know despair, that cruel sorrow
That follows ambition's defeat.

You know mother's love in its fullness, The smell of the sweet summer's The feel of your toes as you mouth them. And the squeak of your fat teddy-bear.

Ill you ask are these simplest of

General Mud plays no favorites in N. Africa, miring the best laid plans of military geniuses

By JOHN PAUL ADAMS

World War I, Alexander McAdle, has told us that weather and wind deteated the British Gallipoli invasion organized by Winston Churchill. The failure of that campaign to take the Dardanellies is credited with having sealed the fate of monarchist Russia and with having goolonged the war a wear or more.

General Weather Conditions plays no favorites. He was definitely on the Nazi side at the first of World War II. ### HERE'S THE ANSWER, HERR HITLER

THINK back a while, Herr Hitler. Remember when you couldn't put your mind to anything but armaments and super highways? You forgot about your railways then, didn't you? You just let them tag along.

That's where we think you were wrong, Herr

Look at the raitways in Canada. We're one of the democracies you refer to. We weren't looking for war-but we were ready to do our job. That's why we had the best of rolling stock and locomotives : : : modern roadbeds . . . improved equipment and trained personnel. We meant them for peace-time. You're learning now how useful they've been in war . . . carrying the biggest load in our history, most of it stuff for licking you.

Don't you wish you had railways like ours, Herr Hitler? With Air Force locomotive-busters adding to your troubles, wouldn't it be fine?

But it's too late now, Herr Hitler. Goering sold you the idea of guns instead of butter and then promised "No bombs will fall on Germany." One way and another, it's left the railways as your particular headache.

And it's all yours, Herr Hitler-not ours!

### RENEWAL OF UNEMPLOYMENT INSURANCE BOOKS

To All Employers: All Unemployment Insurance Books for the current fiscal year 1942-43 must be turned in for replacement by new books.

Between

MARCH 29th and APRIL 3rd New Insurance Books for the fiscal year 1943-44 will be exchanged by the Local Employment and Selective Service Office in your area for expired Insurance Books.

Do not send in your Insurance Books without com-pleting forms enclosed with circular letter No. 625.

If you have not received this circular letter, get in touch with your nearest Employment and Selective Service Office immediately.

Where it is necessary to quote the Employee's Insurance Number, use the number with the prefix letter shown on the front cover of the book: example P-49247, E-22454. Do not quote the book serial number printed on the inside pages of the book.

Protect the benefit rights of your employees by following closely the procedure outlined in the circular letter, and prevent delays by acting now.

There are severe penalties for falling to make Unemployment Insurance contributions for your insured employees and for failure to renew the Insurance Books as required.

### TO HELP YOU SAFEGUARD YOUR WAR SECURITIES

You have made a patriotic investment in Victory Bonds ... or War Loan Bonds . . . or War Savings Certificates . . . perhaps all three . . . to help your country in the war . . . and to help assure your after war future.

To enable you to preserve your war securities from danger of loss by fire or theft, Canada's Chartered Banks offer a safekeeping service. Here are the details:

VICTORY BONDS and WAR LOAN BONDS-Take them to your bank ... to any branch of any chartered bank ... the bank will put them into safekeeping for you, will clip your coupons when the interest falls due, and will deposit the money to your name . . . If you haven't a bank account you can authorise the bank to open one for your convenience.

The total charge for this service and serviceoping is only 25 cents a year on bonds (no mether how many) up to \$250 11; enements of one per cent on amounts over \$250;

WAR SAVINGS CERTIFICATES - You can lodge them also with your bank . . . which will take them into safekeeping and for just one small charge cover the whole of the time (or any part of it) from purchase to maturity. Here is all it will cost you - not just for one year - but for 71/2 years:
